April 16, 2018

**Press Release No. 2/2018**

Under the Science and Technology (S&T) Cooperation Agreement signed between Government of India and Government of United States of America, an Implementing Agreement was signed between India's Department of Atomic Energy (DAE) and USA's Department of Energy (DOE) on July 19, 2011 to implement the S&T projects between the two countries. Today, Dr Sekhar Basu, Secretary, DAE and Chairman, Atomic Energy Commission and U.S. Secretary of Energy Dr Rick Perry signed agreement related to Project Annex-II.

Project Annex-II is a collaborative project in the area of Neutrino Physics. The objective of this project is to establish the framework for the Neutrino Physics research between the USA's Fermilab and India's DAE and DST laboratories. This research and development activity will be jointly carried out by the two laboratories, based on reciprocal sharing of knowledge in this field.

Earlier, on January 21, 2015, DAE and DoE had signed Project Annex-I related to research and development in the field of High Intensity Superconducting Radio Frequency Linear Proton Accelerators in both the countries.
